The Platform.

The candidates of the Democratic and Silver parties of Nevada are now before the people as a fusion ticket, and they stand upon what is essentially a fusion platform. Each of these parties adopted its own declaration of principles. These declarations differ slightly in matters of detail, and much in phraseology, but very little in substance. Both are strongly for the free coinage of silver. The mode of statement is conservative and dignified, but there is no weakening in Nevada's demand upon this question. The specific endorsement of the Kansas City money plank in itself definitely settles the status of the Democracy of Nevada; but this is reinforced by a detailed statement which leaves nothing in doubt. So far as the Silver party is concerned it needed no platform declaration upon silver. Like Bryan, it is a platform in itself. But it has a declaration in favor of free coinage which is absolutely unequivocal and which cannot possibly be misunderstood.

Each party demands legislation for the curbing of the Trusts, and the modification of the tariff so as to prevent these cornerstones of business from over-charging the American consumer. Upon imperialism, bank currency, labor and all matters of local import the two parties are in perfect accord. But aside from this the candidates of both parties have strongly and unreservedly endorsed both platforms; so that for the purposes of the campaign the two platforms are to be considered as one. Hence they should be read together, and the one taken to reinforce the other wherever reinforcement is necessary.

The Democratic platform is rather more elaborate than that of the Silver Party, and it is certainly one of the most comprehensive and forceful ever presented by any party to the voters of Nevada. It cannot be satisfactorily reviewed within the limits of an editorial of reasonable length. It should be read and studied by the voters themselves. It has been most carefully drawn, and while its arraignment of the Republican party is unsparring, the arraignment is couched in dignified language, and better still, it is fully sustained by the record which that party has made.

Its flaying of Stewart is probably the

How To Gain Flesh

Persons have been known to gain a **pound a day** by taking an ounce of **SCOTT'S EMULSION**. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

50c and \$1.00, all druggists.
I. SCOTT & BOWNE, Chemists, New York.

most severe ever administered by any political party in this country to one who was once a trusted public official of high rank. No one seems to question the justice of the castigation, but a few have expressed the opinion that Mr. Stewart comes too near being a political corpse to merit any notice whatever. This would be eminently true were it not for the circumstance that he has suddenly loomed up as the leader of the party which so frequently denounced him as a "political traitor" of the deepest dye, and which party he has just as frequently denounced as a mere machine for the registry of the "gold conspirators."

Without descending to meaningless ranting, demagoguery, the platform puts itself fairly in line with the just demands of labor. It could not have done otherwise for the Democratic party, regardless of all platform utterances, is essentially the party of the people, of whom the laboring elements constitute the great bulk. The chief aim of the National Democracy is to bring back the government to those foundation principles of equality, which during all the early days of the Republic constituted its true glory and greatness.

The concluding plank, which deals with the State government, is worthy of the most careful consideration. It invites attention to the splendid record made by our State administrations since the Republican party lost its pre-eminence, and does this for the purpose of meeting the false cry that capital and vested interests generally will be insecure unless the Republican party is in control of the State government. The truth is that while the Democratic party is not like its opponents, the creature of the capitalistic classes, it has never yet aimed an unjust blow at capital, and would protect alike both the rich and the poor. But it makes eternal war upon that policy which shapes all our National legislation to the primary advantage of certain capitalistic classes, leaving labor in all its forms to pick up whatever crumbs it incidentally may—that is such as the favored classes may voluntarily dole out.

So far as this State is concerned the interests of both capital and labor will be best safeguarded by the Democratic and Silver parties, because the policy of these two parties is a policy of Western industrial development. Let any Philadelphia capitalist who has invested in Nevada mining properties ask himself how the policy of the Republican party is of advantage to his investment, and if he doesn't have an inward tussle in finding the advantage, then he must be one of those lawyers from the city of brotherly love who are popularly supposed to represent a superlative type of ingenuity. The condition of our mining industry has a most important, almost vital bearing upon all other business in the State, and therefore affects the value of all investments.

The Democratic and Silver parties of this State are not composed of anarchists and hobos. They comprise a large percentage of the very best elements of our people. In their councils we find men of brains, and men of wealth, and men who have both brains and wealth—men who are and have been closely identified with its most important interests, who love the State and its people just a little better than they love any other State or any other people. Such are the men who have framed and adopted these two platforms, and they may be relied upon to give Nevada a government, that will mete out equal and exact justice to all who cast their lots with us in the grand work of developing our mines, building up our cities and converting our sagebrush plains and valleys into smiling, productive farms.—*Journal*.

A merchant in a country town, recently used a bulletin board to advertise his business, instead of putting an ad. in his home paper. An old granger with the gable end of his pants out came along and saw the sign: "Before, you buy pants, come in and see ours." He went in and there was not a man clerk in the store. He bought a corn cob pipe and went out, whistling, "There's no Place Like Home."

Judge Mack, who was nominated by the fusionists at Reno for Short Term University Regent, was found ineligible and declined the nomination. The filling of the vacancy was left to the State Central Committee of the Silver party. It is illegal for a Judge on the bench to accept other than a legal position within a year after the expiration of his term of office.

Good books are cheap. Scatter them around your home. Some lesson in them may start your child upward to a useful life.

Loyalton was selected as the place for holding the next annual Methodist conference.

It is estimated that Washoe county will produce sixty tons of honey this season.

Have a small farm without a blanket on it and cultivate it well.

Silver Party State Platform.

We, the representatives of the Silver party of Nevada, hereby reaffirm the principles upon which the party was founded as enunciated in our last State platform and declare our unyielding fidelity to those principles.

We deplore the untimely death of our late President, William McKinley, and express our horror at the crime of his assassination.

MONEY QUESTION.

We unequivocally condemn the Republican party for its attitude upon the monetary question.

The improved business conditions which have followed the increased supplies of gold fully support the great bi-metallic contention that the country was suffering from a contracted money volume.

Many of those who are now acting with the Republican party admit, 'hat what is called Republican prosperity, is, in reality, the result of more money in circulation, the very thing which the leaders of the party declared to be unnecessary.

We deny that silver is a dead issue. The question of silver coinage is merely a part of the larger question of money in general, and this question is ever with us, presenting itself in varied forms and ways.

We believe that the free coinage of silver would add largely to the measure of the existing prosperity and especially here in Nevada, a State so deeply interested in silver mining.

BANK CURRENCY.

We are opposed to every scheme for the inflation of our currency by means of bank notes which are not and cannot be full legal tender, and the volume of which depends on the caprice or interests of the banks.

REVENUE.

The Silver party of Nevada reaffirms the revenue plank enunciated in the platform of 1900, and calls the attention of taxpayers to the fact that since that time under the revenue law enacted by the Silver and Democratic Legislature in accordance with such pledge that four millions of property valuation has been added to the assessment roll and the State tax thereby reduced twenty per cent.

TAXATION.

We are in favor of taxing patented mines and mortgages.

TRUSTS.

We are opposed to trusts and monopolies in every form. We favor appropriate legislation on this line, and to whatever extent the present tariff fosters and encourages the growth of these great industrial combinations, we insist that it should be modified and reduced so as to relieve the American consumer from the extortion of trusts and monopolies.

FOR AN EIGHT-HOUR LAW.

We favor the protection of labor unions in every just right and such legislation as will make eight hours a lawful day's work.

We favor a constitutional amendment providing for the initiative and referendum.

ELECTION OF SENATORS.

We adhere to the view expressed in our last State platform that United States Senators should be elected by direct vote of the people.

EDUCATION.

Being proud of the educational institutions of our State which are equal to, and in many instances superior, to like institutions in other States, we cordially endorse the administration of our educational institutions and pledge our party and representatives to support the same in all proper ways.

RAILROADS.

We recognize and appreciate the commercial improvements and concessions of the Southern Pacific railroad in this State in the last year, and urge upon that company the necessity of a terminal point in this State.

IRRIGATION.

In common with all our people we rejoice in the enactment of the Irrigation Law at the last session of Congress.

If fairly executed it cannot fail to be of great benefit to our State in the conservation and utilization of waters now running to waste; in the equalization of the flow of the waters of our rivers and streams; in the protection of our existing farms from drought and in the reclamation of lands now unavailable for agricultural purposes.

We particularly commend the provision which guards against land monopoly and preserves the public domain for actual settlers and home seekers.

We heartily congratulate our representative in Congress, the Honorable Francis G. Newlands, upon the conspicuous part which he took in securing this important piece of legislation.

HON. FRANCIS G. NEWLANDS.

In recognition of the services of the Hon. Francis G. Newlands, our Representative in Congress, we endorse his candidacy for the United States Senate.

LEASING OF PUBLIC LANDS.

We oppose the leasing of public lands, either to individuals or corporations or their sale in large tracts, but that they be held for actual homeseeking settlers.

STATE ADMINISTRATION.

We commend the administration of State affairs by the Silver party during the past eight years.

We pledge our candidates if successful, to make every effort to continue the State government upon a high standard of efficiency and integrity, and to every feasible improvement in administration.

We submit that the Silver party has been faithful to its mission, and fully merits the trust and confidence of the people.

Candidates in Eureka county are circulating petitions to get their names on the ticket.
